Programmes

Discussion

Discussion sessions will be conducted with the added insights from academics, NGOs, and social entrepreneurs. This is a great opportunity to learn first-hand information from these industry insiders.

Workshops

There will be a few carefully designed workshops to equip participants with the skills and knowledge to not only better contribute to the discussions, but become future change-makers.

Untold Narratives

Inspired by the concept of Human Library, Individuals with relevant personal narratives will share their stories within intimate small groups. Participants are encouraged to contribute their personal stories and experiences as well.

Thematic Tours

Several tours around the island, that are aligned with the topics of discussion, will be conducted. Participants have the chance to interact with individuals affected by the issues raised during discussions.

Exploring Singapore

Discover local eats, spectacular architecture and the rich diversity of this city with your newly made local and international friends.

Why should I join ?

- 1** Engage in critical discussions of pressing issues and exchange good practices, knowledge, experiences and ideas from diverse perspectives.
- 2** Be equipped with change-making tools by various stakeholders.
- 3** Network with and gain insights from speakers, NGOs and industry insiders.
- 4** Create a tangible and meaningful team project during the conference.
- 5** Form lasting local and international friendships.

Registration
